PROJECTS

Diploma360 – Event Management System

[Live](#) | [Client](#) | [Server](#)

Technology Used: Next.js, Redux, Node.js, Express.js, MongoDB, Tailwind CSS

A full-stack, role-based event management platform built to manage diploma-level events, users, and participation through a centralized system.

- **Event Management:** Organizers can create, update, publish, and manage events, including online and offline formats.
- **Scalable Backend Architecture:** Built using MVC pattern with RESTful APIs for maintainability and future expansion.

Daily Talim - Frontend

[Live](#) | [Repository](#)

Technology Used: Next.js, Tailwind CSS, ShadcnUI

A platform designed to make Islamic learning accessible by providing daily hadiths and essential prayer tools.

- **Daily Random Hadith & Subject-wise Collection:** Helps users learn consistently with a new hadith every day and explore categorized topics.
- **User-friendly Features:** Includes multiple reading themes, prayer times based on location, and options to copy, share, on download hadiths easily.

ClassNet - Virtual Classroom

[Live](#) | [Client](#) | [Server](#)

Technology Used: React, Nodejs, Express.js, MongoDB, Mongoose ODM, Tailwind CSS, Firebase, JWT, SSL Commerz

An interactive virtual classroom platform aimed at enhancing online teaching and learning experiences for both students and teachers.

- **Messaging System:** Provides a real-time chat system enabling seamless communication between students and teachers within each class.
- **Calendar Integration:** Includes a calendar feature for displaying key dates, such as assignment deadlines and exam dates.
- **Payment Gateway:** Integrates a payment feature for premium features, allowing schools and teachers to upgrade and create additional classes.

CERTIFICATION
